DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. **Claims 1 and 19** are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claims contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor, at the time the application was filed, had possession of the claimed invention. Amended independent claim 1 recites limitations "excludes using the signal of the right stereo channel and a signal of a right surround channel" in lines 10-11; and "excludes using the signal of the left stereo channel and a signal of a left surround channel" in lines 13-14 for which the information regarding the above mentioned limitations could not be found in the originally filed specification.

Regarding **claim 19**, this claim merely specifies a program necessary for performing to method claim of claim 1 and is therefore interpreted and rejected for the same reasons.

3. **Claims 3-9** are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claims contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor, at the time the application was filed, had possession of the claimed invention. Amended independent claim 3 recites limitations "excludes using a signal of the left surround channel and a signal of a right surround channel" in lines 10-11; and "excludes using the signal of the right surround channel and the signal of a left surround channel" in lines 13-14 for which the information regarding the above mentioned limitations could not be found in the originally filed specification.

4. **Claims 10-14** are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claims contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor, at the time the application was filed, had possession of the claimed invention. Amended independent claim 10 recites limitations "excludes using the output (signal) of the left surround channel and the output (signal) of the right surround channel" in lines 13-14; and "excludes using the output (signal) of the right surround channel and the output (signal) of the left surround channel" in lines 17-18 for which the information regarding the above mentioned limitations could not be found in the originally filed specification.

5. **Claims 15-18** are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claims contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor, at the time the application was filed, had possession of the claimed invention. Amended independent claim 15 recites limitations "excludes using the signal (sound) of the left surround channel and the signal (sound) of the right surround channel" in lines 17-18; and "excludes using the signal (sound) of the right surround channel and the signal (sound) of the left surround channel" in lines 21-22 for which the information regarding the above mentioned limitations could not be found in the originally filed specification.

Response to Arguments

6. Applicant's arguments with respect to claims 1, 3-19 have been considered but are moot in view of the new grounds of rejection.

7. With respect to objections to the claims, the claims have been amended. Accordingly, the objections are removed.

8. With respect to objection to the specification, the specification has been amended. Accordingly, the objection is withdrawn.

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).
